BEN SALEH DERB TICHY NR 08, MARRAKECH, MOROCCO

SOFTWARE ENGINEER

Dedicated software engineer and student at 1337 with a passion for pushing the boundaries of technology. With a strong programming background and a knack for solving complex problems, I am eager to learn and take on new challenges, including code optimization and exploring innovative technologies. Dependable, organized, and able to manage multiple priorities with a positive attitude, I consistently assume additional responsibilities to help teams meet their objectives.

EDUCATION

Baccalaureate in Experimental Sciences, Physics Option Lycée Qualifiant le Maghreb Arabe, Marrakech, Morocco	2018-2021
Bachelor in Management and Business Sciences (Incomplete) Faculty of Legal, Economic, and Social Sciences Marrakech	October 2021- 2022
Software Engineer 1337 Coding School	October 2022 - Present

STRENGTHS AND EXPERTISE

Problem-Solving Adaptability Web App Development Linux / Unix Virtualization Technologies	Programming Languages Software Development Algorithm Design Debugging and Optimization Containerization Technologies	Source and Version Control Team Collaboration Debugging and Optimization Algorithms and data structures
---	--	---

SKILLS

Programming Languages:

- C, C++, JavaScript

Web Development:

- Django, HTML/CSS, REST APIs, JavaScript

DevOps & Virtualization:

- Experience with Docker, and virtual machine setups

Operating Systems:

- Linux/Unix/Windows

Version Control:

- Git, Github, Gitlab

Databases:

- PostgreSQL

Problem-Solving & Debugging:

- Strong algorithm and data structure skills, debugging and performance optimization
